Enjoyable Genealogical
Social Is Held

The Genealogical Committees of the First and Second Raymond wards held a most enjoyable get together social at the home of Mr. and Mrs. T. W. Meldrum, when the Committee members and partners, augmented by representatives of the Bishoprics, Stake Genealogical Committee and Stake Presidency brought the total number present up to 40 or more.

A lovely turkey supper with all the trimmings, was served in real banquet style and a good share of the evening was spent at the table, in toasts, and musical numbers, the following numbers and toasts being given:

Toast to 1st Ward Bishopric—Mrs. J. H. Walker.

Toast to 2nd Ward Committee—David Watson.

Toast to 2nd Ward Bishopric—Paul Redd.

1st Ward Committee—Mrs. Fred Romeril.

Toast to Host and Hostess—Arthur Dahl.

Toast to the Cooks—Bishop Heber F. Allen.

Sketch of the future home of Genealogical Committee members, who fell down on their jobs—Pres. O. H. Snow.

Vocal Solo—Mrs. D. Watson.

Humorous stories, games and community singing occupied the remainder of the evening, and the party dispersed with a splendid feeling existing, and the assurance that the get together would do a great deal of good in stimulating Genealogical work in the two Raymond wards.

Don't miss "THIS DAY AND AGE" at the Capitol this weekend. It is one of Cecil B. De Mille's masterpieces. Nuf Sed.

Raymond Hi Lights

School life at the R. H. S. is moving tumultuously on. The new president seems to have spurred all the students on with pep and ambition, because there the diverting sports such as tennis, volleyball, boxing, and basketball, is it any wonder they forsake their studies for a few hours play.

The basketball is exceptionally fine this year. The team is composed of—Forwards—Billie Meekes, Paul Fairbanks, Bruce King, Centres—James Meek, Wilson Kolfson. Guards—Smellie Redd, Howard Keith, Leland Nalder, Harold Blackmore. Utility man, Winston Shaw.

Coach Low feels confident that these boys will bring the cup back to Raymond. All teams are cut for business, and it is certain to be an interesting basketball season.

The popularity contest is nearing a close with Irene Combs leading the list, and Maurine Redd running a close second.

A play club has been organized for the purpose of learning songs and later singing over the radio. Mr. Low is giving them excellent training.

The weekly literary was held Wednesday, the program being as follows: Reciting by Karl Alfred. Guitar Solo by Millie Romeril. Dance by Gladys Strong and Kathleen Hagne. Piano Solo by Margaret McBride and Phyllet by XII XII.

Following the literaries some one from the audience is called upon to act as a critic for the program. A matinee dance was enjoyed by the students at the close of literary.

NOTE: The name of Arden Dumas was omitted from the Basketball forward line.

WILL YOU HELP

Folks it costs money to ements of subscription accounts. You could help us greatly by stepping in and inquiring about the status of your account, and we will make it well worth your while to do so.

We have offered 25 p.c. reduction of all accounts, and this will still be in effect for some time. Help us to help you, by accepting his reminder of your account and come in to see how it stands. We will appreciate it immensely.

THANK YOU.

News Notes

"Broadway Through a Key-hole" next week-end is different and you should see it.

P. D. Bennett of the Safeway Store was in Lethbridge Monday forenoon.

Don't fail to get your name on the petition for a change in the present car license year, if you think a change would be good. The petitions are at the local garages and service stations now.

Sunshine Relieves
Alberta Suffering

Always generous in their response to appeals in behalf of the distressed, the people of Alberta recognize that this winter will witness a greater need than ever before. Various causes which are so well known that they do not require stressing, are perpetuating a condition which is probably the most tragic in the history of the province. Thousands of persons will have to be assisted with food, clothing and the other requisites of life. Everyone who can help with cash donations, with food, clothing, boots and shoes, fuel, or anything else which can be used in the household, is earnestly invited to contribute.

An organization which has labored faithfully for twenty-one years to make easier the lot of those who are sick or destitute is the Calgary Herald Sunshine Society which operates throughout the year and which makes a special effort to take comfort to those in distress at Christmas time when it distributes hundreds of hampers. Last Christmas it sent out close to 400 splendid hampers.

So far this year Sunshine has aided more than 24,475 persons, in Calgary and Southern Alberta, the great majority being children. These are cases for which relief is not available from other sources. Through its own records, those of the Bureau of Confidential Exchange, and the co-operation of rural municipal authorities, overlapping is guarded against. In every case is investigated and dealt with on its merits. Sunshine makes sure that every cent that is contributed for relief is expended wisely for this purpose.

Sunshine appeals for help so that it may carry on its work. Cash is especially welcome but if this cannot be given, grain, potatoes and other vegetables, poultry, eggs or any form of food, clothing, underwear, boots and shoes, blankets, quilts, etc. will be appreciated.

Those who wish to help are invited to communicate with Sunshine care of the Calgary Herald.

Changes Underway
At Opera House

The Opera House looks like a cyclone had struck it. The boys have been busy tearing out the balcony and moving the partitions, so that the floor can be enlarged to make it standard size, and the baskets rearranged for Basketball. The entrance will be on the stage, instead of at the street entrance, and it is likely that with the added length to the floor, that some of the present width will be taken up with seats, so that three rows of chairs will be placed on each side, and two, or three rows on the south end, which will make the seating capacity as great or greater than at present, and make the visibility much better, as the balcony was always a disappointment to fans trying to watch a game.

The ticket sale is going on, and it is hoped that people will rally to the support of the Association, and assist the sponsors in getting the money together to complete the alterations, and carry the winter's activities through to a successful finish and a beneficial winter to all of us.

When you have the time step in and see the changes being made, and if you can spare the time help the boys a little in their work. They are trying to get all the work done in order to cut down expenses for the work and for the citizens of the Town.

News Notes

Lee Wall, who is working in Lethbridge, spent the week-end at home with his folks.

Primary Conference will be held in the Second Ward Sunday evening next.

"Broadway Through a Key-hole" next week-end is different and you should see it.

Melvin Godfrey of Magrath was a business visitor in Raymond Thursday.

Representatives of the Stake M. I. A. Board visited the two Magrath wards in their Mutual Christmas Cards and avoid.

Don't miss "THIS DAY AND AGE" at the Capitol this weekend. It is one of Cecil B. De Mille's masterpieces. Nuf Sed.

Solon Low was in Lethbridge Saturday representing the local High School in the organization meeting for Basketball held there. He helped draw up the schedule for the High School League which will appear in this issue.

Basketball Organized
For Coming Season

At a well attended meeting held in Lethbridge on Saturday last, George Manson was named organizer for Southern Alberta Basketball in place of Harvey Greenway who refused to accept the position for another year. The meeting was very enthusiastic and the prospects for the coming winter are for a great deal of good basketball.

The teams are lining up about the same as they did last year, and High School, Junior, Intermediate and Senior Basketball will be playing in Southern Alberta. Raymond will have High School, Intermediate and Senior teams in the fray. The Senior division will likely start about the middle of January, and in the meantime, exhibition games will be arranged between the Jacks and the teams of neighboring towns and travelling teams in Western-United States and Canada.

The only schedule so far drawn up is for the High School and here it is. We will print the others as fast as we can get them:

The Schedule

Southern Alberta high school basketball schedule:

First half—Dec. 15, Raymond at Lethbridge; Magrath at Cardston.

Second half—Feb. 2, Raymond at Lethbridge; Magrath at Cardston.

First half—Dec. 22, Lethbridge at Magrath; Cardston at Raymond.

Second half—Feb. 9, Lethbridge at Magrath; Cardston at Raymond.

First half—Jan. 5, Lethbridge at Cardston; Raymond at Magrath.

Second half—Feb. 16, Lethbridge at Cardston; Raymond at Magrath.

First half—Jan. 12, Magrath at Lethbridge; Raymond at Cardston.

Second half—Feb. 28, Magrath at Lethbridge; Raymond at Cardston.

First half—Jan. 19, Lethbridge at Raymond; Cardston at Magrath.

Second half—March 2, Lethbridge at Raymond; Cardston at Magrath.

First half—Jan. 26, Cardston at Lethbridge; Magrath at Raymond.

Second half—March 9, Cardston at Lethbridge; Magrath at Raymond.

Canadian Boys Win
Boxing Bouts at B.Y.U.Successful Temple
Excursion

The Mutuals of the Taylor Stake put over a very successful excursion to the Temple on Wednesday last, when headed by the Stake Officers, who went nearly 100 per cent strong, the ward organizations lined up and were there in very good numbers.

The Taylor Stake was not so well represented in the morning session, although there was a goodly number there too. But in the afternoon, with the stores closed and some of the teachers in the schools able to get away, there were enough Taylor Stake, with those from the Alberta Stake to make a company of 135, and at that all were through and home by about eleven o'clock.

The weather man was of good behavior and everyone had an enjoyable trip, no serious trouble being reported. Several special musical numbers were rendered by members of the Taylor Stake at both sessions.

Local Safeway
Store Wins Prize

In a recent competition in sale of P and G Soap, the Local Safeway Store management and staff was pleasantly surprised when they received notice that they had been awarded first place. This store has been in the winners several times, but this was the first time they had achieved first place in the district, which covers Alberta and Southeastern B. C.

The contest was held on a percentage basis, and the store's achievement in handling sales of this soap contributed to its high mark awarded prize.

Only 1 Month till Xmas

Cooks and Cooks

(Children Science Editor)

Intoxicated with the very thought of the holidays and well-being, which the dead of wine and whiskey, to be let free in the United States on December 5 will permit, the next few jubilant days of Christmas is the subject. Unlike the liquor trade, the newsman's do not have to wait until that magic date to get their share of the golden fund which they loudly proclaim the liquid food will instantly release; before repeal was voted, but have edged their way into the Christmas season, brought at last to the office.

It is a fact that the movement of some of the most popular visitors from Magrath to the district, with which some papers evidently present the fact of their hand knocking, and has left the editorial columns with the news of "temperance" which has been gleefully heralded the news that very shortly a date of 125,000,000 gallons of alcohol will be ready for consumption. Schlem articles by economists deplore the flight of American capital to foreign securities while display advertisements urge Americans to fill the parks with champagne fountains in France and nations of whiskey in Scotland.

When it comes to social benefits anticipated from repeal, hardly anything short of the millennium is predicted. Profound observations of bartenders and dealers of old-fashioned temptations that a new and glorious

(By Howard Forsyth)

Max Steed of Cardston, sophomore, and Jerome Platt of Brant, Alberta, freshman, showed off their wares in the annual freshman-sophomore boxing-wrestling scrimmage at Brigham Young University. Steed won his match with a freshman and Platt fought a sophomore to a draw in two of the most colorful matches on the program.

Platt in the 118 pound class was a favorite with the fans as he pummeled Donald Ream of Provo in the most popular match staged. The match ended in a draw although the referee expressed an unofficial opinion that Platt had the upper hand. Max Steed and a Utah freshman fought a snappy set and the decision went to the Temple city lad. Steed is well known in Alberta amateur boxing circles. Platt is best known as a long distance ace, having defeated Andersen in Calgary's six-mile classic last summer. Both boys are attending the Latter Day Saint University at Provo, Utah.

The boxing-wrestling carnival was staged as an event in the annual freshman day at the varsity. It ended in a 18-18 deadlock between the two rival classes.

Jas. C. Thompson
Welling Old-Timer
Passes Away

James C. Thompson, an old timer of the Welling district and well known to Raymond people, passed away in the Cardston Hospital Wednesday morning after a lingering illness. The funeral was held Thursday in the Stake Tabernacle Cardston. He was a Temple worker and very faithful in his labors. Three of his boys, Henry, George and James are farming at Welling, and his wife also survives him. We extend the sympathy of the district to the family in their sorrow.

News Notes

RENEW YOUR RECORDER

Many a man's life is simply a long line of the Dead Sea, with no streams run in.

Christmas is not very far away. Come in and order your plenty of it. Students are as disappointed.

Don't miss "THIS DAY AND AGE" at the Capitol this weekend. It is one of Cecil B. De Mille's masterpieces. Nuf Sed.

Mr. and Mrs. Ted Goutler and Twilla and Ross Larsen were Lethbridge visitors on Thursday afternoon.

Many farmers are busy this week plowing, beet hard, and some are working their summerfallow again before winter.

ious are in upon us take on the dignity of front-page prominence. Cooks and potentates of the kitchen dwell touchingly on the gastronomic delights awaiting a nation that apparently has had nothing really fit to eat since appetites remained unstimulated by potent drinks.

How gratifying it must be to farmers unable to meet their taxes, unpaid school teachers and the army of unemployed to realize that notwithstanding their harassment hilarious prosperity is about to burst upon them, through the medium of people's food and cheaped whiskey bottles.

PLAY THE GAME

This is the time of the year when merchants and implement dealers, who have been carrying our burdens for us, expect to cash in and satisfy the whole sales and people whom they owe. It is the time of year when we have made promises of settlements in full or part, on things we call our own, and things which in many cases we have used up and forgotten about.

We owe it to every person to whom we have made promises to try and do a little. Disappointments are crowding on us fast and steadily, we know. Prices for what we have to sell are depressed, and prices for what we have to buy are going up. There is a "nigger in the woodpile" somewhere and no mistake. That we feel discouraged, dissatisfied, and ready to quit is only natural. But, folks this is no reason for making ourselves dishonest and a cheat.

The old adage that "Honesty is the best policy" is just as true now as ever it was, and is just as valuable. The fact that big men everywhere are going to jail for defrauding innocent victims, proves that justice will eventually take its toll, and while we may be greatly handicapped, and unable to do but a very small part of what we have promised, still, in times like these, a gesture of willingness goes a long way, and while it will not pay bills, it will make the men we owe, feel better and have faith in us, and after all, faith is the final wealth of the world.

We stand amazed at the faultless construction of burglar proof safes, vaults, etc. But what good are they, unless the men who know their secrets are honest. Every corporation, firm and business in the world, succeeds only so far as those who have charge are honest and play the game fairly. That the world is full of dishonest men everyone knows, but when the time comes that most of us swing to the ranks of dishonesty and deceit, then our civilization will crumble about us, and we will go in to decay. Destroy confidence and the pillars of the world are gone.

So, as individuals, let us play the game. As members of the

L.D.S. Church in this this community, the eyes of the world are upon us, and we are expected, not only because it is our duty by the law, but because of our morals, to play the game fairly and honestly, do the very best that we can, in the face of existing conditions, and let the world and our fellow men know that at least we desire to do the right thing by those who have helped us out, and that in the face of discouragement and depression we can and will be honest.

Remember the saying, "A quitter never wins, and a winner never quits." This present period of disappointment cannot last forever, and when the sun of prosperity shines again, and we find our pockets full of money begging to be spent, we will find little joy in it if we have forfeited our reputation for honesty. "Play the game."

SERMONETTES ON SELFISHNESS

(From the Woman)

I is the first letter of an idol. Self-made men usually worship the maker.

An egotist's eyes look in instead of out.

Man is a self-lover and a self destroyer.

It is better to be a booster than a boaster.

A man's worst enemy is buttoned up in his coat.

Number one is the very smallest number there is.

When a man lives to himself, he has poor company.

The whale gets into trouble when he starts to blow.

To be buried in self-love is the worst of all tombs.

When a man is a god to himself, he is a devil to others.

Selfish people have many acquaintances but not many friends.

When we reach the end of self we get the beginning of God.

When a man sings his own praise, his song is pretty sure to be a solo.

Some men want others to see through I, rather than eye to eye.

"Self" spelled backward, with the letter "h" added, spells "f-l-e-e-h."

When a man gets himself out of the way he can look after other people.

One can not have a little self and a little Christ. All or none.

Don't look at yourself thru a microscope. You can see enough with the naked eye.

A MISTAKE

He: "I say, I wish you would not call me Mr. Jenkins."

She (cayly): "Why don't you wish me to call you Mr. Jenkins?"

He: "Merely because my name's Robinson."—Pearson's.

HM - M !

Teacher: "This essay on 'My Mother' is just the same as your brother's."

Bobby: "Yes, Miss Brown; you see, we have the same mother."

PROOF

"My last boarded was a wonderful artist," sighed the landlady, as she hacked at the pie-crust. "always said he found inspiration in my cooking."

"Ah, a sculptor, I presume," said the new boarder, surveying his bent fork.—Pearson's.

WILLING TO TAKE CHANCE

Country Gentleman: "Here hold my horse a minute, will you?"

Senator: "Sir, I'm a member of Congress."

Country Gentleman: "Never mind. You look honest."

The Recorder

Puffing her way along the tumbling Fraser canyon over roaring trestles and through cavernous tunnels, the "Royal Scot" is shown here as she approached North Bend, B.C., at the start of her crossing of the Canadian Rockies over the scenic main line of the Canadian Pacific Railway. The London, Midland &

Scottish flyer accomplished the Rockies crossing without benefit of "pusher" power and entirely under her own steam, thus writing another achievement into the record of her Canadian and American tour. The rugged nature of the mountains along the C.P.R. line near North Bend, with the Fraser River rushing through its

rocky caverns to the Pacific, shows the kind of country this famous British train conquered on her history-making trip over the Canadian Pacific.

Canadians continued to give the Royal Scot a warm-hearted welcome. Western Canadian cities turned out almost en masse to cheer and examine the visitor from the Mother land.

ALBERTA NEWS BULLETIN

Issued by Publicity Commission,
Government Buildings, Ed-
monton, Friday, November
21st, 1933

Alberta Turkeys in New Zealand

In far away New Zealand, the largest turkey farm in that country has been built up from foundation stock secured from turkey breeders in Alberta, according to information from the provincial poultry department. This New Zealand farm is owned and operated by a woman, Mrs. Katherine Bull, who purchased her breeding stock from Alberta some years ago. She forwarded a photograph of her flock recently taken by the Governor-General of New Zealand, and she has also placed a further order for breeding stock with the provincial government.

ALBERTA MASTER FARMERS

Congratulations are due to two farmers of the Edmonton district for having been awarded the Master Farmer's Medal for Alberta for 1933. The farmers who have won this distinction this year are Charles Ellett, who farms twelve miles south-east of Edmonton, and W. S. Walker, who farms about the same distance west of Edmonton. The master farmer movement came to Western Canada some years ago through the medium of the Nor-West Farmer of Winnipeg, and a number of Alberta farmers have been awarded the medals, which are given to those farmers who in the opinion of the board of judges have been outstandingly successful as farmers and citizens. The winners for 1933 have been residents of Alberta for many years. Mr. Ellett, who in his youth was a jewelry salesman in London, England, homesteaded on his present farm location nearly fifty years ago. Mr. Walker, a native of Ayrshire, Scotland, came to Western Canada in 1906, and has built up a fine farm home at Winterburn, near Edmonton.

Auto Fatalities in Alberta

In a bulletin issued recently by the federal bureau of statistics, Alberta is shown to be the second lowest among eight provinces in percentage of motor fatalities. Quebec province is highest with more than 18 per cent. of fatalities to each 10,000 cars registered. On this basis New Brunswick appears second highest with a percentage of more than 17, while Nova Scotia's percentage is over 12, Ontario's 9 per cent., British Columbia 9 per cent., Alberta 5.46 per cent. and Saskatchewan 3.73 per cent.

Coal Production

Production of coal in Alberta for the month of September totalled 437,144 tons, an increase of 4,258 tons from the same month of 1932. The total production for the nine months to the end of September for this year was 2,934,326 tons compared with 2,089,224 tons for the same period of 1932.

Successful Bacon Meetings

Farmers in general are showing a keen interest in the meetings now being held throughout this part of Alberta to promote the better bacon hog campaign inaugurated by the provincial department of agriculture in co-operation with the federal department, the railways and the packers. The gatherings are being largely attended, and the demand for information is such as to indicate a strong desire on the part of the farmers to do their part in raising the percentage of best bacon type hogs produced in Alberta. Stress is being laid on the point that it is not increase in number that is needed, but a greater proportion of high quality hogs such as are suitable for the British market.

Two New Weeds at Work

Two new weeds have been added to the official list of noxious weeds of Alberta. These are the Leafy Spurge and the Heavy Cress.

Grain Exhibits at Chicago and Toronto

Alberta exhibitors in the grain classes at Chicago and Toronto this fall will not be as numerous as in former years, but they will offer some strong competition to exhibitors. At

Chicago, there will be about 60 entries, including 22 in the wheat classes and 14 in the oats classes. Only one former wheat champion, Joseph Smith of Wolf Creek, is exhibiting there this year, but a number of junior grain club members have entered the Chicago ring with high hopes. At Toronto, there will be 26 entries in the grain classes including 15 in the junior club classes. Last year it was a junior grain club member, Paul Sebastian of Wembley, who at Toronto, won the Canadian championship in oats.

Alberta Poultry for the British Market

A considerable quantity of Alberta poultry will be exported to the British market this fall, it is reported by the provincial poultry department. Supplies are now being gathered together for a shipment during the week of November 24, which it is hoped will amount to about eight carloads. The poultry is being obtained largely from Southern Alberta points, and it is interesting to note, will include a whole car of geese. Last year about one million pounds of Canadian poultry were exported to the British market, a quantity of which came from Alberta.

Warm November Weather

Alberta has been experiencing a sort of second Indian Summer during the past week, with very high temperatures at many points. The snow which came in the latter part of October has almost entirely disappeared in many places, and reports come from Southern Alberta that the cattle are once more on grass, and maximum temperatures there reached as high as 60 degrees, early in the week. However such warm weather is not entirely unusual for Alberta, for the records of the past 10 years show some very high November temperatures during the period, as well as some quite low ones, of course. At Edmonton, in four of the ten years, the November maximum temperature was over 50 degrees, with a high record of 74 degrees in 1931. The average mean temperature for November in the ten years at Edmonton was 24 degrees. At Calgary, the ten-year record shows seven years in which the thermometer passed the 60 degree mark during November, with an average mean temperature for November during the ten years of 28 degrees. Lethbridge also had seven years in the past ten in which the mercury rose above 60 degrees in November, and its average mean temperature for November for the ten year period was 31.

Alberta Wheat Crop

A bulletin has just been issued by the dominion bureau of statistics which gives the bureau's final estimate of the Alberta wheat crop for the season of 1933 to be 95,100,000 bushels as compared with 164,000,000 bushels for 1932.

Marketing Grain Through Poultry

Marketing grain through the poultry route would mean better than dollar wheat for the farmers who have poultry flocks, even at present poultry prices, according to the provincial poultry commissioner, in a recent bulletin on the finishing of poultry on the farm. A report of F. C. Elford, dominion poultry husbandman, given at the world grain congress last summer, stated that experiments had shown that it takes 28 pounds of mixed grain, wheat, oats and barley, to grow a 6½ pound Barred Rock cockerel. In other words, 4½ pounds of grain can be converted into one pound of chicken meat. On the basis of the present price of nine cents a pound for No. 1 chicken, 100 pounds of grain fed to good poultry for meat purposes would have a value of \$1.93, or at the rate of \$1.15 a bushel for wheat 93 cents for barley and 65 cents a bushel for oats.

James E. Barrett, Managing Director of the Oklahoma Biltmore Hotel in Oklahoma City, says:

"Every business man knows

IF IT'S Broadhead's IT'S PURE

"A" Grade Milk and Cream

Here and There

One of the largest cargoes of lumber shipped from Saint John on the Canadian Atlantic coast was forwarded to Great Britain recently. It consisted of 3,043,696 feet, mostly of deals.

Output of nickel in Canada in 1932 totalled 30,327,563 pounds valued at \$7,179,862. Production during the first six months of 1933 amounted to 22,802,434 pounds as compared with 21,162,786 pounds for the corresponding period of 1932.

Every home at some future date will have "air conditioning" and the word "heating" will pass out of use among home owners. J. J. Donovan, General Electric Company expert, told a largely attended meeting of the Electrical Club at the Royal York hotel, Toronto, recently.

Steep grades of the Rocky Mountain areas presented no difficulty to the Royal Scot, crack British flyer, en route to Winnipeg and the east from Vancouver recently. The all-British train is attracting great popular enthusiasm throughout Canada on its return journey to Montreal.

Montreal's "million dollar hole" on Dorchester street, where a railway terminal was to have been built, will become the world's most costly garden. If Canada sees eye to eye with a couple of Montreal aldermen who advocate beautifying the gash with flowers and shrubs.

Canadian Pacific employees under 21 and minor sons of employees are again offered the opportunity of two University of Montreal scholarships by competitive examination, according to an announcement by Grant Hall, senior vice-president of the company. Applicants have until May 1, 1934, to make application.

Twenty-one months of training in a recognized shop, junior matriculation or its equivalent and a course in an academy to be established in Toronto is the ordeal for novices for Ontario registration as barbers and hairdressers. It was stated at a meeting of honorific arbiters at the Royal York hotel, Toronto, recently.

Five ports hitherto not on the schedule of world cruise liners have been added to the 1934 itinerary of the Canadian Pacific liner Empress of Britain when she leaves New York, January 4 next. They are Semarang, Java; Boeleberg and Padang Bay, Island of Bali; Penang, Straits Settlements; and Zamboanga, in the Sulu Archipelago.

In making a choice between transportation by rail and by road, shippers should consider what the railroads are doing and have done for their advantage. G. C. O'Malley, development commissioner, Canadian Pacific Railway, told the Rotary Club of Lyndonville, Vt., recently. He cited many cases where the railways had first inventoried, then developed the natural resources of the continent.

in this day and age that a Chamber of Commerce, or Board of Trade, is organized for the purpose of looking after the affairs of the community.

"Individuals cannot do it—each individual has his own affairs to take care of.

"Experience has proved that an organization composed of all the business men to act on behalf and for the general interests of all brings results.

Its membership should be as large as the intent and purpose of such a body is to add to the profit and prosperity of all.

"Chambers of Commerce are business bodies and they will, when properly conducted and supported, increase the gross business of a city.

"In order to make a city greater and to increase the prosperity of a community, every citizen should support this organization in proportion to his means.

"In union there is strength, and a union of all the people of a city in a work for the entire community always proves most profitable.

"The business man who refuses to contribute his small mite of time and money to carry on this work which benefits him is indeed a sorry apology for a man."

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

DIET IN DISEASE

The health of the body cannot be maintained without a properly balanced diet. The lack of any one of the food essentials from the diet leads to the loss of health and to actual disease.

If some part of the body has become diseased, then, as part of the treatment for the patient, a diet should be used which will not throw any extra strain upon an already weakened or diseased organ. This is particularly true of the kidney.

The kidneys have the task of ridding the body of much of its waste material. In nephritis, or Bright's Disease, the kidney is not able to function properly. The treatment therefore aims to relieve the kidney of as much of its burden as possible.

There is no diet which is suited to all cases of kidney disease. The proper diet in any individual case depends upon the nature and extent of the disease. People have read that "acid foods" are harmful, and they start to live on what they think is a non-acid diet, without even knowing what are the acid and what are the alkaline foods.

As a matter of fact, a diet made up of an excess of alkaline foods is actually harmful, and it is certainly not the best diet for damaged kidneys. There should be a balanced diet, so that there is no marked excess of either alkaline or acid foods. A slight excess of alkaline foods is generally desirable.

The acid foods are meats, poultry, fish, eggs, and the cereals. Alkaline foods are the fruits and vegetables. It is a surprise to many people that the citrus fruits leave an alkaline ash after they are used up in the body and that oysters leave an acid ash practically this means that the diet should include a liberal amount of fruits and vegetables.

There is a real difference between a salt-free diet and a

Alberta's Opportunity IN THE British Bacon Market

For the first time in history the World's Greatest Bacon Market has granted a definite quota to Canadian Bacon Producers, under Controlled Importation to Assure a Steady Market. Canada's quota is 280,000,000 lbs. annually.

The Key to This Market is Quality

Alberta was second in 1932 among all provinces in total hog marketings, but only eight hogs in every 100 marketed were suitable for the British trade.

Not More, but Better Hogs

What is needed is not greater numbers, but a greater proportion of the Select Bacon Type required by the British Market.

Policies to Encourage Production of High Quality Bacon Hogs Suitable for Overseas, have been adopted by the Alberta Department of Agriculture in co-operation with the Federal Government, the Railways and Packers. These include bonus-paying and exchange of off-type sows by the farmers for selected gilts from the packing plants.

Write for Particulars to

Alberta Department of Agriculture

GEO. HOADLEY, Minister of Agriculture. S. G. CARLYLE, Live Stock Commissioner.

salt-poor diet. In some cases of nephritis, it is necessary to cut down the amount of salt used, because the kidney has difficulty in secreting it, which leads to edema, or swelling. A salt-free diet requires medical supervision. A salt-poor diet, can salt to the food at table, and be secured through not adding by adding salted fish, meats and other salted foods.

When diet is a part of the treatment for any disease, it requires just as careful prescribing and supervision as does any other part of the treatment. Diet is certainly not a cure-all but it is of importance in the treatment of some diseases. Self-experimentation by trying various diets is dangerous, because of the harm which it may cause. Questions concerning health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.
